# SYSTEMS REFLECTION

NAME: \_\_\_\_\_ PERIOD: \_\_\_\_\_ DATE: \_\_\_\_\_

**OBJECTIVE:** To complete a series of works based on a system, or set of rules and constraints / To present final works in a digital format (student webpage) / To reflect on the outcome of the series in writing (process blog) and in a video interview

## 1. Photo of Finished Work

Take the best quality photos of your work that you can and upload them to your website's "Gallery" page. Organize and label them as follows:

Heading            *System #1: [Description of system]*  
Label                *Title, Medium, Date*

## 2. Process Blog Post: Written Reflection

Create a Process Blog entry responding to the following prompts (include process photos):

- What was the system behind the second series of works you produced? How did you interpret the system?
- How did you incorporate chance elements into your systems, and how did they affect your work? [Consider working with the constraints of another artist, the strategy cards, and the "5<sup>th</sup> Grade Painting Challenges" video]
- Overall, what are your thoughts on working with systems? Consider some or all of the following questions: What unexpected results did the systems produce? What ideas emerge from your series? What do you think your work is about? What do the two series have in common?

## 3. Video Interview

Interview a classmate about their series. Keep it short (less than 5 minutes)

- Setting: Set up tripod and camera. Place work on display around/behind artist.
- Interviewer: Write your own questions, or ask a version of the questions above (but make it your own, don't simply read verbatim)
- Interviewee: Respond in a natural, conversational way – don't read your blog post

Video interviews will be placed on teacher's Vimeo account and linked to your webpage
